Positive Intelligence by Shirzad Chamine Makes a Strong Debut at #5 on the New York Times Bestseller List

A groundbreaking approach to long-term achievement, Positive Intelligence examines the reasons why new attempts to increase performance so often sizzle and fail. Combining the best of neuroscience, positive psychology, organizational science and coaching, Shirzad Chamine reveals proven methods to help business and individuals overcome mental “saboteurs” and support lasting increases in performance and fulfillment.

With Ph.D. studies in neurobiology, a BA in Psychology, an MS in Electrical Engineering and an MBA from Stanford, Shirzad Chamine is the chairman and former CEO of CTI, the largest coach training organization in the world. Chamine has personally coached hundreds of CEOs over the course of his career.

Positive Intelligence is Greenleaf’s 19th book to reach bestseller status in rankings that include The Wall Street Journal, New York Times and USA Today bestseller lists.
